

Dear Tenney Community,

As anticipated, Tenney will begin distant learning effective Monday, March 23, 2020. All students have been set up with Microsoft Teams. Students have received instruction on how to log-on and communicate using Teams.

Students log into Teams using their Office 365 Tenney School email and password. Students' usernames are: first name.last name@tenneyschool.com. If a student needs their password reset, please have them email Ms. Brahier or Ms. De La Rosa.

Students and teachers will be following the student's schedule. All students received a copy of their schedule on Friday. Please email me if your child needs a copy of their schedule. Teachers will initiate contact with students to begin instruction; students should make themselves available during their scheduled class time.

I encourage parents to contact me via email if they are having difficulty or any issues with their child's distant learning.

We understand that closing school poses challenges for parents, students, and staff. The collective health and safety of our school community is our top priority. Further decisions regarding instruction will be made with guidance from local and state officials. We will continue to make updates regarding COVID-19 at <https://tenneyschool.com/covid-2019-coronavirus-prep/>.

Sincerely,

Catherine De La Rosa

Principal, The Tenney School
